

The diagram illustrates a web browser interface with the following components:

- Title Bar:** Located at the top, it contains two empty rectangular boxes and a plus sign.
- Navigation Bar:** Below the title bar, it features back, forward, and refresh icons, followed by two address bars containing Braille text.
- Main Content Area:**
 - A Braille label is positioned above the first column of the table.
 - A table with 10 rows and 3 columns is the central element.
 - Column 1:** Contains black squares. The first two are isolated, while the remaining six are connected by lines to form a tree structure.
 - Column 2:** Contains horizontal bars.
 - Column 3:** Contains horizontal bars.
